

**Outline Dimensions**

# Battery Charger 12V 4A

Your Batteries' Doctor

AOPEC Chargers give you a revolution in battery charging technology. Its multiple stage desulfation, charging and analysis ensures a fully charged and well maintained battery every time. AOPEC chargers are compact and durable, allowing it to operate in a compact, dusty, and humid environment.

## Functional Characteristics

- MCU- controlled
- 5-Step charging process
- LED charge steps display
- Error warning
- Surge protecton
- Battery reverse polarity protecton
- Over-voltage protecton
- Over-current protecton
- Short-circuit protecton

## Main Technical Data

Part Number	Input Voltage	Input Frequency	Output Voltage	Output Current	Dimensions (inch)	Operating Temperature
BC12400	100-240VAC	50/60Hz	12VDC	4Amp MAX	6.36*2.95*1.60	-4°F~104°F

**Perfect For**
